

SECURITY

M60 Series

The highly popular M60 models can satisfy virtually all your car security needs. Easy to use with a wide range of features, Standards certified, Star rated, reliable and affordable.

M60G – M60NZ

The M60G provides a 5 Star vehicle security system with some outstanding features as standard equipment;

Battery back-up siren, 2 stage impact sensor to protect against physical impact (accident or otherwise), microphone glass break sensor that 'hears' when the glass is breaking, keyless entry, siren chirp and light flash confirmation, built-in 1~5 minute programmable turbo timer, built-in central locking relays, silent chirp by remote – to name but just a few.

Our M60GNZ model excludes the impact sensor.

Tested and certified to the highest AS/NZS Standards – 3749.1 2003 Class A.

M60B / M60S

The M60B and M60S are two of the most popular 4 Star security systems on the vehicle security market due to their excellent features (most of which are shared with the 5 Star models), durability and proven performance.

The M60B includes a standard siren and two stage impact sensor.

The M60S offers higher security with the inclusion of a battery back-up siren – just in case a thief cuts the siren wires!

Tested and certified to AS/NZS3749.1 2003 Class B Standards.

M60i

The 3 Star M60i is an automatic dual circuit engine immobiliser with remote control of the central locking.

Alarm functions can be added at any time.

Tested and certified to AS/NZS4601 2003 Standards.
